Download associated Zoom client from: https://zoomgov.com/download

Zoom Client for Linux
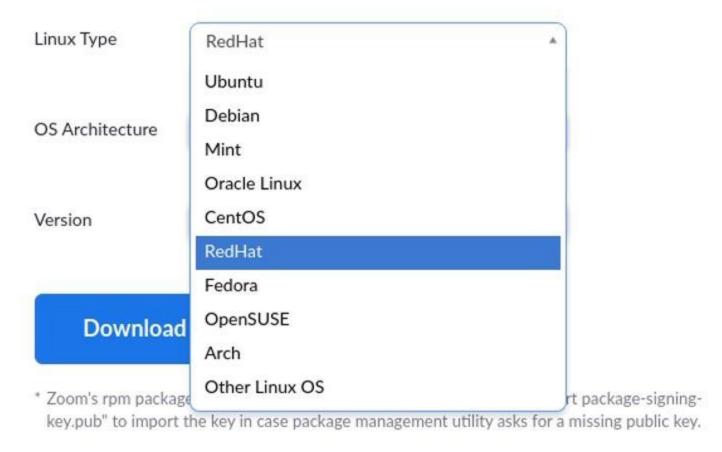

The Zoom Client for Linux allows you to start or join Zoom meetings on Ubuntu, Fedora, and many other Linux distributions.

Linux Type	RedHat ▾
OS Architecture	64 bit ▾
Version	7.0+ ▾

Download   rpm (for RedHat 7.0+)
Version 5.8.0 (16)

I selected RedHat/64-bit/7.0+, but many types are listed:

Zoom Client for Linux

The Zoom Client for Linux allows you to start or join Zoom meetings on Ubuntu, Fedora, and many other Linux distributions.

Linux Type	RedHat ▲
	Ubuntu
	Debian
OS Architecture	Mint
	Oracle Linux
	CentOS
Version	**RedHat**
	Fedora
	OpenSUSE
Download	Arch
	Other Linux OS

* Zoom's rpm package   rt package-signing-key.pub" to import the key in case package management utility asks for a missing public key.

Then install the downloaded rpm:

```
cd ~/Downloads
sudo yum install ./zoom_x86_64.rpm
```

```
wmoore@cni-vdi701> sudo yum install ./zoom_x86_64.rpm
Loaded plugins: enabled_repos_upload, langpacks, package_upload, product-id, search-disabled-repos,
              : subscription-manager
Examining ./zoom_x86_64.rpm: zoom-5.8.0.16-1.x86_64
Marking ./zoom_x86_64.rpm to be installed

Is this ok [y/d/N]: 
```

After, run 'zoom' to create your local config file. Then edit file to allow zoomgov:
```
zoom # then close it.
sed -i 's/enableCloudSwitch=false/enableCloudSwitch=true/' ~/.config/zoomus.conf
zoom # Zoom should now have zoomgov option available
```

# Sign In with SSO

Browser then opens with JLab's SSO login page. After login, you may get a pop-up for allowing links in the brownser to run the zoom client:

**Allow this site to open the zoommtg link?**

You'll need to choose an application.

☑ Always allow **https://jlab-org.zoomgov.com** to open **zoommtg** links

Cancel          Choose Application

**Choose an application to open the zoommtg link.**

Zoom

Choose other Application                    Choose...

☑ Always use this application to open **zoommtg** links
This can be changed in Firefox's preferences.

Cancel          Open Link

Zoom client that was already open, now has the home screen.
